Important Notes Regarding Historic and Architecturally Significant Maximum Building Size Bonus Process

1. Once the Landmark Preservation Commission determines a home to be historic or architecturally significant and thus qualifies for the 20 percent maximum building size bonus, the findings and notice of applicability of the regulations pertaining to the maximum building size bonus shall be recorded against the property at the Cook County Clerk's Recordings Division.
2. The property owner may then apply for a building permit taking advantage of the bonus. All exterior alterations and additions must not alter the nature of the Critical Exterior Historical or Architectural Features as defined by the Code. The Director of Community Development shall determine if the exterior alterations and additions do not destroy the nature of the Critical Historical or Architectural Features. The Director's determination may be appealed to the Village Council.
3. A property with a house previously designated a **landmark** by the Village automatically qualifies for a one-time, maximum building size bonus of 20 percent, provided that the landmark has not been altered in a manner that the Landmark Preservation Commission determined was inappropriate. Exterior alterations and additions to a landmark require review and approval by the Landmark Preservation Commission.
