VILLAGE OF WINNETKA

Throughout Winnetka's history, the Village has benefited from the service of resident volunteers who have contributed their time and talents. More than 50 residents populate eight boards and commissions, serving in an advisory capacity to the Village Council on a variety of subjects important to the community. In order to help match residents who wish to serve based on interests and experience with potential board/commission appointments, the Village has developed an applicant questionnaire. This background information will be reviewed by Staff and the Village President as board/commission vacancies occur. Please keep in mind that submitting the questionnaire does not guarantee an appointment, nor does it commit you to a position without further discussion. Information will be treated confidentially, to the extent permitted by law, though it does become public information if an applicant is appointed to serve.

If you wish to be considered for a future appointment, please complete the applicant questionnaire form and return it the Village Manager's Office, by email at kkazenas@winnetka.org or to Village Hall at 510 Green Bay Road, Winnetka. Questions can be directed to 847-716-3543. Further information about the boards/commissions, their missions, and current members, is also available on the Village website at www.villageofwinnetka.org.

The following is a list of current Boards and Commissions in which residents are encouraged to participate, all of which meet monthly, with the exception of the Firefighters/Police Pension Boards. Regular meeting dates and times are available on the [Village website](#).

- **Design Review Board (DRB):** Holds hearings and issues recommendations on applications related to external architectural features and/or site improvements for multi-family, institutional, and commercial structures within the Village. The Board also publishes design guidelines and considers sign permit applications.
- **Environmental and Forestry Commission (EFC):** Advises on urban forestry and tree preservation, including permits for tree removal; makes recommendations on environmental policy initiatives such as sustainability, energy conservation, pollution, and recycling.
- **Firefighters Pension Board (FPB):** Controls and manages the investments, expenditures, and revenues of the Village's Firefighters' Pension Fund. The Illinois Pension Code requires the Village to establish the fund as well as a specific five-member board to provide for its management.
- **Landmark Preservation Commission (LPC):** Develops technical and educational information about the Village's heritage, holds hearings and makes recommendations to the Council on applications for landmark designation, reviews demolition permit applications to determine historic and architectural impact, and identifies structures and properties of historic significance in Winnetka.
- **Plan Commission (PC):** Assists in the development and amendment of the Village's Comprehensive Land Use Plan; considers applications related to subdivisions and special use permits, and makes recommendations to the Village Council.
- **Police Pension Board (PPB):** Controls and manages the investments, expenditures, and revenues of the Village's Police Pension Fund. This board, established by the Illinois Pension Code, has five statutorily specified members that govern the management of the fund.
- **Zoning Board of Appeals (ZBA):** Conducts public hearings on all zoning variation requests and either makes final determinations or sends recommendations to the Village Council. The ZBA also conducts hearings on special use permits and appeals to the Village's Zoning Ordinance.
